Heikki Huotari

Motive

As they died a natural death so I would turn the hour glass back and outlaw truck nuts they live in infamy and may they give the finger to the one who deigns to disagree. My motivation is a metaphor for Schrödinger's inclusive or. I'm flying in formation, data driven, and can prove it. Love me; love my knowing crows. Your attribution of intention to me lacks imagination—I do have desires, just not those.

Heikki Huotari currently lives in San Francisco.
